

Company/Organization Name: KENALL MANUFACTURING

Location: 10200 55th Street Kenosha, WI 53144

Position/Title: PROJECT MANAGER, TOOLING ENGINEER

Duties/Responsibilities: As a proud advocate for manufacturing in the U.S.A., Kenall has become a champion in developing advanced lighting solutions, systems and controls for high abuse, transportation, security detention, and sealed enclosure for healthcare, cleanroom, containment and food processing environments. Kenall has an opportunity available for a Tooling Engineer position in our Engineering Department as follows:

The **Project Manager, Tooling Engineer** is responsible for managing and coordinating engineering production tooling including but not limited to; aluminum die-castings, plastic injection moldings and aluminum extrusions

Responsibilities:

- Monitor all designs being developed by engineering team to have strong understanding of requirements when part designs are ready for tooling phase
- Quote all tools and answer questions with vendors regarding requirements
- Quote all SLA requests and ensure timely delivery of quotations and parts
- Monitor status of all tooled parts and provide regular updates
- Interface with vendors to provide best parts regarding materials and finishes
- Interface with vendors to ensure timely delivery of samples as well as production parts
- Interface with vendors when problematic parts are received during normal production
- Visit vendor locations on a regular basis, including some international travel
- Utilize portfolio project management software for all communications and critical data storage
- Create vendor drawings for quotations and quality

Qualifications:

- Bachelor's degree in Mechanical Engineering
- 5+ years' experience with tooling design and development, die casting, injection molding, aluminum and/or plastic extrusions
- Proficient using 3D CAD solid modeling software and AutoCAD
- SolidWorks experience strongly preferred
- Comfortable with and possess the following skills: negotiation, communication and relationship building as part of vendor management job responsibilities. Strong written and verbal English communication skills
- Fluency in Mandarin strongly preferred
- Ability to travel at least 10% of time to meet with vendors (including some international travel to Taiwan, China and/or Korea)

Committed to advancing the state of lighting, Kenall is an established organization with a proven track record of excellence and great corporate culture. If you share our drive, professionalism and enthusiastic spirit and would like to be a part of a growing organization, we would like to hear from you.

Salary Range: Based on experience
